Full Stack Developer:

Recent graduate of Coding Dojo's immersive web development bootcamp, who loves combining the creative and technical worlds. Looking for an opportunity to use skills and technologies newly acquired in coding bootcamp which include Ruby on Rails, PHP, CodeIgnitor, JavaScript, Angular.js and Node.js. Also experienced in customer service, software testing, and video production. Excited to join a great team and build cool stuff for the world to use.

Technologies & Skills:

Front End Development
HTML, CSS, JQuery, JQuery UI, Bootstrap

Languages
PHP, JavaScript, Ruby

Frameworks
CodeIgnitor, Angular.js, Express, Socket.io, Rails, Sinatra

Databases
SQL (MySQL, SQLite3), NoSQL (MongoDB)

Servers
Apache, Node.js, WEBrick

Methodologies
Agile, Waterfall, OOP, MVC, RESTful architecture

Developer Tools
Sublime Text, Git, Terminal, Github

Testing
TDD, QA/QC, Acceptance, Performance & Regression testing

Video/Audio Production
Final Cut Pro, Pro Tools

Web Development Projects:

As You Wish - Website allowing users create and add items to a wish list as well as see other users' wish lists.
Technologies: PHP, CodeIgnitor, HTML, CSS

Ask Me Anything - A 'questions' website where users can submit questions for the community to answer.
Technologies: MongoDB, Node.js, Express, Angular.js, HTML, CSS

Hey DJ! - Playlist application in which a user can add songs and add a particular song to their playlist multiple times.
Technologies: Ruby on Rails, HTML, CSS

Education:

Full Stack Web Development
Coding Dojo, Bellevue, WA (Oct 2015)
Black Belt Achievement, Ruby on Rails

Certificate in Software Testing & Quality Assurance
University of Washington, Seattle, WA (Feb 2014)

Bachelor of Arts, Media Production
Western Washington University, Bellingham, WA (Jun 2010)
Public Relations, Historian for Black Student Union

Experience:

Media Producer   Jul. 2014—Jul. 2015
Expedia, Bellevue, WA
- Utilized online research and internal tools to generate and verify new hotel media content.
- Given additional task of overseeing the Maintenance Database, ensuring that hotel data is accurate when editing programs fail to make proper updates
- Provided excellent customer service to hoteliers across the globe by answering general questions, resolving technical queries and triaging reported bugs

Lead Triage Specialist/Meta QC   Apr. 2012—Apr.2014
Google, Bothell, WA
- Labeler and QC on top labeling team for Google Maps; consistently in the top 10% for team productivity and quality scores
- Given additional task of Triage Specialist, assigning difficulty level to each map that labelers touch. This score was the key factor for the team's metrics.

Test Associate I   Oct. 2011—Apr. 2012
Microsoft, Redmond, WA
- Performed manual system, acceptance, regression, load and functional tests on the Nike + Kinect Training video game on the Xbox 360 console.
- Ranked in top 20% in number of bugs found in gameplay.
